THE LUXURY OF CHOICE

A unique opportunity to create
a tailor made home

INDIVIDUALITY BY DESIGN

Choosing the architectural style of your new home is just the beginning of this exciting, collaborative and personal journey.

Our award-winning architects have created five home designs, each offering a sensitive, contemporary interpretation of a traditional rural property, ensuring this new gated community feels truly rooted in its environment while offering all the luxuries of a thoroughly modern family home.

What makes this development different to how you would usually purchase a new home? It's the level of input that you can have into the internal room layouts and the ultimate specification. It is a bespoke, custom build exactly to your liking – not the 'cookie-cutter' approach as is otherwise the case.

Once you have chosen the house of your dreams and your plot, we will build your house to include hard and soft landscaping, to a wind and watertight stage or to full completion. Your choice.

From this point on you are in the driving seat, working alongside our interior design team who will guide you to completion, regardless of whether you choose either option.

Option A - Blank Canvas will provide you with the ability, to completely bespoke your own home. Talk to us about the technicalities of a self-build mortgage.

Or Option B - Designer layout will provide you with a choice of finishes as well as 2 internal Layouts both upstairs and downstairs with us funding the works to completion (subject to exchange of contracts – no self-build mortgage required).

This is an amazing opportunity to build the home of your dreams with the guidance and support of an extremely talented and experienced design team.
